Summary

Experienced Go and React developer with a strong background in building scalable web applications and microservices. Adept at designing and implementing robust backend systems in Go, as well as crafting elegant and responsive user interfaces with React. Seeking opportunities to leverage my expertise in full-stack development to create innovative software solutions.

Web development, web design, client-side architecture, server-side architecture, responsive design, and integration of third-party APIs are among the skills.

Experience

Backend Engineer

Black Mental Health Matters Inc

Oct 2023 - Present (1 month)

I'm ensuring the seamless and efficient functioning of the technical infrastructure that powers our digital products and services. I'm responsible for the development, maintenance, and optimization of the server-side components that drive the core functionality of our applications. I'm expertise in programming, problem-solving, and system architecture is essential to create scalable and reliable systems.

Back End Developer

Phsps Apps

Aug 2022 - Jun 2023 (11 months)

- Developed and maintained backend Golang services, implementing restful APIs, authentication and data processing.

- Designed and optimized database schemas for SQL(Postgres) and NoSQL(Mongodb) databases, for efficient data storage retrieval.

- Collaborated with frontend developers to integrate React components into the application, ensuring seamless user experiences.

- Implemented unit test and conducted code reviews to maintain code quality and reliability.

- Mentored Junior developers, fostering a culture of learning and development

Frontend Developer

Customer Experience Management - Freelance

Jul 2022 - Jul 2022 (1 month)

- Designed and developed a customer experience management website, implementing Adobe websites animations.
- Ensured a responsive and accessible design, catering to a diverse user base.

Frontend Developer

Toronto Pearson Airport Taxi

Jul 2022 - Jul 2022 (1 month)

- Developed a user-centric airport departures and arrivals website, creating an intuitive and visually appealing interface for travelers to easily access real-time flight information.
- Optimized the website for various devices and browsers, implementing responsive design techniques and performance enhancements to provide a seamless user experience for travelers accessing the site on both desktop and mobile platforms.

Frontend Developer

Beat Your Best Brand - Freelance

May 2022 - Jun 2022 (2 months)

- Independently delivered high-quality web development solutions for clients across various industries, ensuring that websites and applications met their specific needs and objectives.
- Demonstrated adaptability and self-motivation by managing project timelines, budgets, and client communications, resulting in the successful completion of multiple freelance assignments.
- Stayed current with the latest trends and technologies in frontend development, continually enhancing skills in HTML, CSS, JavaScript, and popular frameworks to provide clients with modern, responsive, and user-friendly web solutions.

Elementary School Teacher

Molad Private School

Jun 2020 - Aug 2020 (3 months)

- Facilitated a positive and inclusive learning environment in a primary school classroom, fostering the academic and social development of young students.
- Designed and implemented engaging lesson plans and instructional materials tailored to individual student needs, promoting a holistic approach to education.
- Assessed and tracked student progress, providing constructive feedback to parents and guardians, and collaborating with colleagues to address educational challenges and opportunities.
- Promoted values such as teamwork, respect, and a love for learning, helping students develop essential skills, critical thinking, and a lifelong passion for education.

Frontend Developer

STGEI International

Feb 2019 - Mar 2020 (1 year 2 months)

- Developed and maintained user-friendly, responsive web applications and websites, ensuring seamless user experiences and cross-browser compatibility.
- Collaborated closely with design teams and stakeholders to implement visual designs and interactive features, translating concepts into functional code.
- Utilized modern web technologies such as HTML5, CSS3, and JavaScript to create dynamic and engaging user interfaces.
- Conducted regular code reviews, optimizations, and testing to improve performance, accessibility, and security, while staying up-to-date with industry best practices and emerging trends.

Education

Navina College

SSCE, Science Department

2015 - 2020

Lagos State University

Bachelor's degree, Computer Science

Aug 2020 - May 2025

Skills

MongoDB • Golang • Bootstrap • React.js • Go (Programming Language) • HTML • Cascading Style Sheets (CSS) • Vue.js • JavaScript
